

REPORT TO CITY COUNCIL

To: Honorable Mayor and Members of the City Council

From: Jason Simpson, City Manager

Prepared by: Rick De Santiago, Public Works Manager

Date: October 11, 2022

Subject: Purchase of Vessel Engines

Recommendation

Authorize the City Manager to approve the purchase of three (3) Vessel Engines in the amount of \$70,164.24 from Last Chance Performance Marine (including tax).

Background

The City of Lake Elsinore has historically purchased and owned 5 vessels. On average the age of the engines on the City's vessels is 7 to 8 years. The City maintains all vessels for use by Sheriff's Department.

The City also reviews its boat replacement needs twice each year: once during budget preparation, and again, as the mid-year budget approaches.

Discussion

As the vessels age, the boat engines are being repaired more often and costing more to maintain. As a result, staff is requesting authorization to purchase the following replacement boat engines:

1. One (1) 250 Verado XL
2. One (1) 250 Verado XXL
3. One (1) 250 Verado CXXL

Following approval of the FY22-23 budget, staff researched the purchase of these engines from local dealerships. Staff contacted three local companies for quotes and received the following response:

Company Name	Quantity	Total Price
Last Chance Performance Marine	3	\$70,164.24
Inland Boat Center, Inc.	3	\$98,927.88
Boat Specialists	3	\$89,201.84

Staff recommends purchasing the boat engines from the low bidder, Last Chance Performance Marine.

Fiscal Impact

The funding is available in the Internal Service Fund for Fiscal Year 2022-23.
