

REPORT TO CITY COUNCIL

To: Honorable Mayor and Members of the City Council

From: Grant Yates, City Manager

Prepared By: Jason Simpson, Assistant City Manager

Date: June 12, 2018

Subject: Public Hearing on the Citywide Landscaping and Street Lighting District and the Landscaping and Street Lighting Maintenance District No. 1 for Fiscal Year 2018-19

Recommendation

adopt A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAKE ELSINORE, CALIFORNIA, CONFIRMING A DIAGRAM AND ASSESSMENT AND PROVIDING FOR ANNUAL ASSESSMENT LEVY AFTER FORMATION OF A DISTRICT FOR FISCAL YEAR 2018-19 FOR THE CITYWIDE LLMD; and,

adopt A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAKE ELSINORE, CALIFORNIA, CONFIRMING A DIAGRAM AND ASSESSMENT AND PROVIDING FOR ANNUAL ASSESSMENT LEVY AFTER FORMATION OF A DISTRICT FOR FISCAL YEAR 2018-19 FOR THE LLMD NO.1.

Background

The City Council (Council) established a Citywide LLMD in 1988 for the purpose of operating and maintaining enhanced public street lighting, right of way landscaping, public street trees and parks throughout the City. The Citywide LLMD was established under the California Landscaping and Lighting Act of 1972. Several improvement areas were established within the Citywide LLMD based upon the level and type of improvements maintained. These improvements then provided a basis for creating several benefit zones throughout the Citywide LLMD to ensure parcels were assessed based upon special benefit to them.

The Citywide LLMD only includes those facilities found to be exempt by Proposition 218, a Constitutional Amendment passed by the voters in November 1996. Park facilities are not exempt per the Constitutional Amendment. Therefore, since November 1996, park maintenance was removed from the Citywide LLMD and has been provided through the General Fund.

The Landscaping and Lighting Act of 1972 requires that an annual review and updated Engineer's Report be prepared to set assessment rates each Fiscal Year. In addition, any new assessment districts or any annexation of additional property into existing assessment districts also requires

an Engineer's Report to be generated. The Fiscal Year 2018-19 assessments in the Citywide LLMD and the LLMD No. 1 Final Engineer's Report will be assessed on the Fiscal Year 2018-19 tax roll and are calculated by considering all anticipated expenditures for maintenance, utilities and administration. Any excess dollars from previous Fiscal Years are carried over to current reports and the assessment amounts are adjusted accordingly.

The assessment rates may or may not change from Fiscal Year to Fiscal Year, dependent upon maintenance to be performed, but cannot exceed the maximum amount set when the districts were originally formed, plus an annual cost of living adjustment (the Citywide LLMD has no cost of living adjustment). The amounts being assessed for the Fiscal Year 2018-19 tax year are either at, or below the maximum assessment authorization. As a part of the process, the Landscaping and Lighting Act of 1972 requires that an Engineer's Report must be filed and a Public Hearing be held.

On May 8, 2018, the City Council adopted the appropriate Resolutions to commence the proceedings for the annual levy of assessments for Fiscal Year (FY) 2018-19 for the Citywide LLMD and the LLMD No. 1. The Public Hearing was set for June 12, 2018.

Discussion

Attached hereto are two Resolutions confirming the diagram and assessment and providing for an annual assessment levy for both districts for Fiscal Year 2018-19. Details of the assessments are provided in the FY 2018-19 Final Engineer's Report for each district.

Fiscal Impact

It is anticipated the Citywide LLMD will generate approximately \$1,400,054 from the assessments to cover the anticipated landscaping and street lighting maintenance activities associated with public improvements benefiting properties within the district. Estimated cost for this maintenance is approximately \$1,981,494. Accordingly, the General Fund must cover the estimated gap of \$581,440. The assessment rates for parcels have no inflation factor included; therefore, the rates have not increased over Fiscal Year 2017-18.

It is anticipated LLMD No. 1 will generate approximately \$598,421 from the assessments to cover the anticipated landscaping and street lighting maintenance activities associated with public improvements benefiting properties within the district. There is approximately \$569,274 in expenditures, and therefore LLMD No. 1 is generally self-supporting with one exception. Zone 4 of LLMD No. 1 requires a general fund contribution of \$13,170 to cover the general benefit portion of the park maintenance costs, as required by Article XIII D of the State Constitution (Proposition 218). The assessment rates for LLMD No. 1 include an inflationary increase of 2%.
