Delivered Price
Bottom Dump

7,125 Tons Class II Base \$ 9.12 per ton

Due to current permit restrictions at the Nichols Road plant, haul rates are based on 6:00 a.m. load times at the plant with a full 8 hours to deliver product. Anything less than 8 hours will have to be re-bid prior to scheduling.

Haul rates are based on an 8 hour day. If less than 8 hours the haul will be billed an 8 hour minimum, at \$100.00 per hour, per truck. The first 5 minutes on the job are included in price, thereafter, \$ 1.67 per minute.

Sales tax and fees are included in delivered prices. Trucking and material are based on availability. ***If a short load is needed, haul is billed at a 25 ton minimum.***

Shipment of material constitutes acceptance of material. Haul rates are based on a minimum 8 hour delivery schedule with the load time at our plant at 7:00 a.m.

Even though we bid a delivered price, this does not guarantee truck availability.

There is a truck shortage due to CARB laws. All trucking is based on availability.

Haul rates include the first 5 minutes on the job, thereafter, \$ 1.67 per minute standby time will be charged. All prices are per U.S. ton.

All material and trucking are subject to availability. Material may be limited daily. Material is subject to pre-approval at the plant site, prior to shipment. Material is guaranteed to meet specification at Chandler plant site only. Shipment of material constitutes acceptance of material.

Haul rates are subject to change without notice. Haul rates are based on fuel not exceeding \$ 4.50 per gallon. Shipment of material constitutes acceptance of material.

Material prices are good through July 2018. However, we cannot guarantee truck rates through July 2018. A 7 day advance notice red prior to shipment.

Notice of intent to purchase must be received by 06/15/18 or bid is null and void.
