## **JOINT COMMUNITY FACILITIES AGREEMENT**

THIS JOINT COMMUNITY FACILITIES AGREEMENT (the "Agreement") is dated as of the 1<sup>st</sup> day of November, 2018, by and among the CITY OF LAKE ELSINORE, a political subdivision of the State of California (the "City"), the ELSINORE VALLEY MUNICIPAL WATER DISTRICT, a municipal corporation (the "Water District"), and WESTERN PACIFIC HOUSING, INC., a Delaware corporation (the "Company"), and relates to City of Lake Elsinore Community Facilities District No. 2007-4 (MaKenna Court) (the "District") for the purpose of financing certain facilities to be owned and operated by the Water District, consisting of various water and sewer improvements described in Exhibit B hereto (the "Water District Facilities").

### **RECITALS:**

A. The Company is the developer of the land described in Exhibit A hereto (the "Property") which is located in the City of Lake Elsinore, County of Riverside, and consists of all the property located within the District.

B. The Company as the developer of the Property intends to obtain, or has obtained, the necessary development approvals to construct approximately 81 residential units on the Property and to provide the required infrastructure for such units and improvements. The required infrastructure includes the Water District Facilities.

C. The City Council of the City (the "City Council") has formed the District pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982, Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the California Government Code (the "Act") and has primary responsibility for administration of the District.

D. The provision of the Water District Facilities is necessitated by the development of the Property and the parties hereto find and determine that the residents residing within the boundaries of the Water District, the City and the District will be benefited by the construction and/or acquisition of the Water District Facilities and that this Agreement is beneficial to the interests of such residents.

E. The parties hereto intend to have the District assist in financing the construction and/or acquisition of the Water District Facilities by disbursing proceeds of bonds issued by the District.

F. The Water District is authorized by Section 53313.5 of the Act to assist in the financing of the acquisition and/or construction of the Water District Facilities. This Agreement constitutes a joint community facilities agreement, within the meaning of Section 53316.2 of the Act, by and among the Water District, the Company and the City, pursuant to which the District, will be authorized to finance the construction and/or acquisition of the Water District Facilities. As authorized by Section 53316.6 of the Act, responsibility for constructing, providing for and operating the Water District Facilities is delegated to the Water District to the extent set forth herein.

I. The parties hereto intend to have the District assist in financing the Water District Facilities by transferring to the Water District a portion of the bond proceeds of the District, in accordance with the terms of this Agreement and pursuant to the Act.

## **AGREEMENT**

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth herein, the parties hereto agree as follows:

1.     Recitals. Each of the above recitals is incorporated herein and is true and correct.
2.     Sale of Bonds and Use of Proceeds. The purpose of this Agreement is to provide a mechanism by which the Company may request the District to issue bonds to provide funds to finance the Water District Facilities. In the event that bond proceeds are not available to finance the Water District Facilities, then the Company shall make alternate arrangements with the Water District to finance the Water District Facilities.

The City Council of the City acting as the legislative body of the District may, in its sole discretion, finance the design, construction and acquisition of the Water District Facilities by issuing bonds (the “Bonds”). To the extent that the District determines, in its sole discretion, that Bond proceeds are available to finance the Water District Facilities, it shall reserve an amount (the “Water District Facilities Amount”) for such purpose.

The Company and the Water District acknowledge that the timing of the disbursement of the Water District Facilities Amount to the Water District shall be in all respects subject to the sole discretion and approval of the City. In no event will an act, or an omission or failure to act, by the City or the District with respect to the disbursement or nondisbursement of the Water District Facilities Amount subject the District or the City to pecuniary liability hereunder.

The Bonds shall be issued only if, in its sole discretion, the City Council determines that all requirements of state and federal law and all City policies have been satisfied or have been waived by the City. In no event shall the Company or the Water District have a right to compel the issuance of the Bonds or the disbursement of Bond proceeds to fund the Water District Facilities Amount.

3.     Disbursements.
  - (a)     Bond proceeds of the District designated for the Water District Facilities shall be held by the District in a special fund (the “Water District Facilities Account of the Acquisition and Construction Fund”) which shall be invested by the City and earn and accumulate its own interest. In the event that the District has deposited Bond proceeds to the Water District Facilities Account of the Acquisition and Construction Fund to fund all or a portion of the Water District Facilities Amount, the City shall notify the Water District and the Company, in writing, as to the amount of Bond proceeds so deposited. All interest earnings on amounts in the District’s Water District Facilities Account of the Acquisition and Construction Fund shall remain in the Water District Facilities Account and will be available for disbursement for the Water District Facilities as described below.
  - (b)     The City shall make disbursements from the Water District Facilities Account of the Acquisition and Construction Fund in accordance with the terms of this Agreement and neither the City nor the District shall be responsible to the Water District for costs incurred by the Water District as a result of withheld or delayed payments.

(c) The Water District agrees that it will request a disbursement of Bond proceeds only for costs related to the Water District Facilities that are eligible for financing under the Act. The Water District agrees that prior to requesting payment from the District it shall review and approve all costs included in its request and will have already paid such costs of Water District Facilities from its own funds or will disburse such amounts to pay the costs of the Water District Facilities within five banking days of receipt of funds from the District. In the event that the Water District does not disburse any Bond proceeds received for disbursement to third parties within five banking days of receipt, it will trace and remit to the District from which such Bond proceeds were received all earnings, if any, earned by the Water District in excess of the yield on the Bonds, from the date of receipt of such Bond proceeds by the Water District to the date of expenditure by the Water District of such Bond proceeds for capital costs of the Water District Facilities. Such remittance, if any, shall occur on the earlier of the date of expenditure of such Bond proceeds or each anniversary date of the transfer of such Bond proceeds from the District to the Water District. The Water District agrees that in processing the above disbursements it will comply with all legal requirements for the expenditure of Bond proceeds under the Act and the Internal Revenue Code of 1986 and any amendments thereto. As a condition to receiving any proceeds of the Bonds, the Water District agrees that it shall provide to the District, a certificate confirming the representations contained in Section 3 hereof and such other matters as the District may reasonably request upon which the District and its bond counsel may rely in connection with the issuance of such Bonds and their conclusion that interest on such Bonds is not included in gross income for federal income tax purposes.

(d) The Water District agrees to maintain adequate internal controls over its payment function and to maintain accounting records in accordance with generally accepted accounting procedures. The Water District will, upon request, provide to the District and the City its annual financial report certified by an independent certified public accountant and any other documents deemed necessary by the District and the City for purposes of calculating the District's arbitrage rebate obligations. The District and the City shall have the right to conduct their own audit of the Water District's records related to the expenditure of the Water District Facilities Amount at reasonable times during normal business hours.

(e) The Water District shall submit a request for payment along with adequate supporting documentation to the District which shall be in the form attached hereto as Exhibit C, which shall be signed by the Director of Public Works, his or her or written designee, and which shall be for the exact amount to be reimbursed to the Water District, which costs shall in no event exceed the amount remaining on deposit in the Water District Facilities Account of the Acquisition and Construction Fund. Upon receipt of an approved payment request completed in accordance with the terms of this Agreement, the City shall wire transfer such portion of requested funds as are then available for release pursuant to the documents pursuant to which the Bonds are issued to the Water District's bank account, as directed by the Water District.

(f) If five (5) years following the issuance of the Bonds, 85% or more of the amount deposited into the Water District Facilities Account of the Acquisition and Construction Fund from proceeds of such Bonds have not been expended for federal tax law purposes, the District may in its sole discretion transfer such funds to the City Facilities Account of the Acquisition and Construction Fund to be used to pay for the costs of eligible public facilities or to the redemption fund to redeem Bonds; provided, however that such funds may be retained in the Water District Facilities Account of the Acquisition and Construction Fund beyond such five year period upon the written request of the

Water District, and delivery by the Water District of an opinion of bond counsel that such extension will not affect the exclusion from gross income of interest on such Bonds issued on a tax-exempt basis.

4. Construction and Ownership of Facilities. The Water District will complete the design of the Water District Facilities and the plans and specifications for construction of the Water District Facilities and will be responsible for constructing and inspecting the Water District Facilities. The Water District covenants and agrees that with respect to the Water District Facilities it will comply with all statutory provisions applicable to the design and construction of public works projects. The Water District Facilities shall be and remain the property of the Water District.

5. Indemnification. The City shall assume the defense of, indemnify and save harmless, the Water District, its officers, employees and agents, and each and every one of them, from and against all actions, damages, claims, losses or expenses of every type and description to which they may be subjected or put, by reason of, or resulting from, any act or omission of the City with respect to this Agreement and the issuance of the Bonds. No provision of this Agreement shall in any way limit the extent of the City's responsibility for payment of damages resulting from the operations of the City and its contractors; provided, however, that the City shall not be required to indemnify any person or entity as to damages resulting from negligence or willful misconduct of such person or entity or their agents or employees. The Water District shall assume the defense of, indemnify and save harmless, the City, its officers, employees and agents, and each and every one of them, from and against all actions, damages, claims, losses or expenses of every type and description to which they may be subjected or put, by reason of, or resulting from, any act or omission of the Water District with respect to this Agreement, and the design, engineering and construction of the Water District Facilities. No provision of this Agreement shall in any way limit the extent of the Water District's responsibility for payment of damages resulting from the operations of the Water District and its contractors; provided, however, that the Water District shall not be required to indemnify any person or entity as to damages resulting from negligence or willful misconduct of such person or entity or their agents or employees.

6. Allocation of Special Taxes. The City Council, as the legislative body of the District, shall annually levy a special tax as provided for in the formation proceedings of the District. The entire amount of any special tax levied by the District to repay Bonds, or to fund other obligations, shall be allocated at the discretion of the District.

7. Amendment. This Agreement may be amended at any time but only in writing signed by each party hereto.

8. Entire Agreement. This Agreement contains the entire agreement between the parties with respect to the matters provided for herein and supersedes all prior agreements and negotiations between the parties with respect to the subject matter of this Agreement.
