

REPORT TO CITY COUNCIL

To: Honorable Mayor and Members of the City Council

From: Grant Yates, City Manager

Prepared By: Remon Habib, City Engineer

Date: May 14, 2019

Subject: Professional Civil Engineering Services to Provide Final Engineering for Summerhill Drive Interim Extension

Recommendation

Approve and Authorize the City Manager to execute an Agreement for Professional Design Services in the amount of \$201,700 to Hunsaker and Associates, Inc., plus an additional 10% contingency, in final form as approved by City Attorney.

Background

The Agreement will authorize Hunsaker and Associates to start the design of a two-lane roadway for Summerhill Drive Extension. The design will provide plans to go out for bid and construction to extend Summerhill Drive to Greenwald Ave.

On January 8th, 2019, Council approved a Professional Services Agreement with Glenn Lukos Associates for the Biological and Regulatory Support for the Summerhill Extension project. Both consultants will work in tandem to provide all professional services necessary to complete a constructible design package with compliance with regulatory requirements.

Discussion

Hunsaker and Associates will provide civil engineering design necessary for the construction of a two-lane roadway extending Summerhill Drive to Greenwald Ave. The design services will address, traffic signal, hydrology, storm drain improvements, grading, geotechnical and all other engineering disciplines required to complete a constructible design. The length of the roadway extension is estimated to be around 4,200 ft in length. The design includes preparing Record of Survey and the identification of Right of Way (ROW) impacts and preparing plats and legal descriptions for the ROW needed.

Fiscal Impact

Professional Services Agreement will result into a cost of \$201,700 plus an additional 10% in contingency.
