

RESOLUTION NO. 2016-29

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAKE ELSINORE, CALIFORNIA, APPROVING OF PLANNING APPLICATION 2017-008 PROVIDING BUILDING DESIGNS FOR 95 SINGLE FAMILY RESIDENTIAL UNITS RANGING IN SIZE FROM 1,387 SF TO 1,897 SF LOCATED WITHIN TRACT 31920-24 OF THE SUMMERLY DEVELOPMENT OF THE EAST LAKE SPECIFIC PLAN (APN: 371-270-022, 044, AND 054)

Whereas, DR Horton, has filed an application with the City of Lake Elsinore (City) requesting approval of Planning Application 2017-008 (Residential Design Review (RDR) No. 2017-003) for the construction of a 95 single-family detached residential development and associated improvements for property located within 31920-24 of the Summerly Development of the East Lake Specific Plan (ELSP) (APN: 371-040-013) (Project); and,

Whereas, pursuant to Lake Elsinore Municipal Code (LEMC) Chapter 17.184 (Design Review) the Planning Commission (Commission) has been delegated with the responsibility of making recommendations to the City Council (Council) pertaining to the RDR; and,

Whereas, pursuant to the California Environmental Quality Act (Cal. Pub. Res. Code §§ 21000 *et seq.*: CEQA) and the State Guidelines for Implementation of CEQA (14 C.C.R. §§ 15000 *et seq.*: CEQA Guidelines), public agencies are expressly encouraged to reduce delay and paperwork associated with the implementation of CEQA by using previously prepared environmental documents when those previously prepared documents adequately address the potential impacts of the proposed project (CEQA Guidelines Section 15006); and,

Whereas, CEQA Guidelines Section 15162 establishes the standard to be used when determining whether subsequent environmental documentation is necessary and says that when an environmental document has already been adopted for a Project, no subsequent environmental documentation is needed for subsequent entitlements which comprise the whole of the action unless substantial changes or new information are presented by the Project; and,

Whereas, a Supplemental Environmental Impact Report was approved and adopted in 2004 for the ELSP Amendment No. 6 (SCH #2003071050) and evaluated environmental impacts that would result from maximum build-out of the Specific Plan, which contemplated development of Single Family Residential development; and

Whereas, the Project does not present substantial changes or new information regarding the potential environmental impacts of development; and,

Whereas, on March 7, 2017, at a duly noticed Public Hearing the Commission has considered evidence presented by the Community Development Department and other interested parties with respect to this item and unanimously recommend approval of the proposed Project; and,

Whereas, on March 28, 2017, at a duly noticed Public Hearing the Council has considered evidence presented by the Community Development Department and other interested parties with respect to this item.

NOW, THEREFORE, THE COUNCIL OF THE CITY OF LAKE ELSINORE DOES HEREBY RESOLVE, DETERMINE AND ORDER AS FOLLOWS:

Section 1. The Council has considered the proposed design for the 53 residential homes and has found it acceptable. The Council has reviewed and analyzed the proposed Project pursuant to the California Planning and Zoning Laws (Cal. Gov. Code §§ 59000 et seq.), the Lake Elsinore General Plan (GP), the ESLP No. 6, and the LEMC and finds and determines that the proposed Project is consistent with the requirements of California Planning and Zoning Law and with the goals and policies of the GP, ESLP No. 6, and the LEMC.

Section 2. The Council finds and determines that no new CEQA documentation is necessary. The Project comprises the whole of the action which was analyzed in the previously approved and certified Supplemental Environmental Impact Report (SCH # 2003071050) for the ESLP No. 6. Approval of the Project will not change density or intensity of use; it simply establishes standards for color palates, articulation, orientation, and design of Single Family Residential development. Therefore, no further environmental review is necessary.

Section 3. That in accordance with LEMC Chapter 17.184, the Council makes the following findings regarding RDR No. 2017-008:

1. The Project, as approved, will comply with the goals and objectives of the GP and the Zoning district in which the project is located.

The Single-Family detached residential development has a GP Land Use designation of Specific Plan, is located in the East Lake Planning Area, and has a Zoning designation of Specific Plan. The proposed Project constitutes build out of a previously approved and recorded tract map that was found to comply with the goals and objectives of the GP and the ESLP No. 6. The proposed Project does not propose an increase in density of development then what was previously approved. Further, the Single Family homes will assist in achieving the development of a well-balanced and functional mix of residential, commercial, industrial, open space, recreational and institutional land uses.

2. The Single-Family detached residential development complies with the design directives contained in the ESLP No. 6 and all applicable provisions of the LEMC.

The Single-Family detached residential development is appropriate to the site and surrounding developments and is a continuation of a previously approved residential product in the adjacent areas. The three (3) architectural styles proposed will create a distinctive street scene within the Project site. Sufficient setbacks and onsite landscaping have been provided thereby creating interest and varying vistas. In addition, safe and efficient circulation has been achieved onsite.

3. Conditions and safeguards pursuant to Chapter 17.184.070 of the LEMC, including guarantees and evidence of compliance with conditions, have been incorporated into the approval of the Project to ensure development of the property in accordance with the objectives of Chapter 17.184.

Pursuant to Section 17.184.070 of the LEMC, the Project was considered by the Commission at a duly noticed Public Hearing held on March 7, 2017. The Project, as reviewed and conditioned by all applicable City divisions, departments and agencies, will not have a significant effect on the environment. Approval of the Project will not result in a substantial change to the previously adopted Supplemental Environmental Impact Report. Therefore, no additional environmental review is necessary.

Section 4. Based upon all of the evidence presented, the above findings, and the conditions of approval imposed upon the Project, Council approves Planning Application 2017-008 (Residential Design Review No. 2017-003).

Section 5. This Resolution shall take effect from and after the date of its passage and adoption.

PASSED and APPROVED this 28th day of March 2017.

Robert E. Magee, Mayor
