I saw a post on Facebook regarding replacement of the bridge and was very excited. Living in Horsethief Canyon Ranch, we use that bridge frequently. Moved here in 2003 and transported two kids to Terra Cotta and Elsinore Middle School. Then to TCHS as they both were new drivers. I'm an experienced driver but was always scared crossing that bridge. Add some rain and it became treacherous, sometimes being closed for flooding. Thank you for moving forward to replace the bridge! Dear Mr. MacHott,

Please move forward with a wider replacement bridge. The current one is narrow and dangerous. The Horsethief neighborhood has limited means of egress. In an emergency, evacuating the area would be difficult if all families attempted to leave at once.

Thank you,
Selina De Rose-Juarez
